NOUREDDINE KAMZON

CS Engineer - Artificial intelligence - Computer vision

n.kamzon@gmail.com|| +212 6 59 56 75 79 | github.com/kamzon| linkedin/noureddine-kamzon

EDUCATION

ENSIAS - ENG. DEGREE
EMBEDDED AND MOBILE SYSTEMS ENGINEERING
2016-2020| Rabat, Morocco

CPGE MOULAY EL HASSAN
TRAINING FOR ENGINEERING SCHOOLS.
2014-2016 | Tanger, Morocco

MATH BACCALAUREATE
2014| Chefhcaouen, Morocco

SKILLS

SOFTWARE SKILLS
• Algorithms.
• Graph Theory.
• **Programming Skills:** Python, C/C++, Java.
• **Web developement:** Html,Css,JS.
• **Database:** MySQL, SQLserver.
• **Distributed version control:** Git.
• Unix, Windows.
• AndroidStudio.

MACHINE LEARNING/DEEP LEARNING
• **Supervised learning:** Regression (Linear/logistic/polynomial), Classification (KNN,SVM,Decision Tree,Random Forest, Naive-Baiyes ...)
• **Unsupervised learning:** Clustering (K-Means, Apriori Algo, Hierarchical clustering...)
• **Reinforcement Learning.**
• **Neural networks:** CNN, RNN, LSTM...
• **Computer Vision:** Image segmentation, Object detection, Images classification.

MATH
•Linear Algebra •probability and statistics • Calculus.

FRAMEWORKS/LIBRARIES
•PyTorch •tensorflow • Scikit-learn •openCV •Keras • Pandas •numpy • scipy.

LANGUAGES

•English •French •Arab.

EXPERIENCE / INTERNSHIPS

HENCEFORTH | CS ENGINEER INTERNSHIP
March 2020 - August 2020 | Rabat, Morocco
Design and implementation of an IM mobile application using computer vision techniques (Deep learning models).
- Development of instant messaging mobile app.
- Training of Deep learning models and deploy them into the application using tensorflow.

FREERAY | SUMMER INTERNSHIP
July 2019 – August 2019 | Rabat, Morocco
Design and implementation of a smart house system controlled by an android app via wifi.
- Recovering data from sensors and control the system using MQTT protocol.
- Plot the data into graphical interface.
- Tools: MQTT protocol, Raspbery pi, ESP8266, Sensors, python.

PERSONAL PROJECT

PROJECT 1 | DESCRIPTION
Jan 2014 – Jan 2015 | Ithaca, NY
Description ....

ACADEMIC PROJECTS

PNEUMONIA DETECTION IN PNEUMOTHORAX RADIO | Object detection - keras - CNN - nih chest x ray dataset.
https://github.com/kamzon/Pneumonia-detection-in-pneumothorax-radio.git
Design and implementation of a computer vision model to detect Pneumonia from chest radiography using CNN.

COLORING/ DENOISING/ COMPLETE IMAGES USING AUTO-ENCODER | keras - CNN - Auto-encoder
https://github.com/kamzon/auto-encoder.git
CNN model using auto-encoder for coloring, denoising and complete images.

DEVELOPMENT OF A DASHBOARD RECOVERING DATA FROM DIFFERENT ONBOARD SENSORS. | IOT - MQTT Protocol - Raspbery Pi - NodeMCU - Sensors - Python - influxDB.
- Recovering data from sensors using MQTT protocol.
- Plot the data into a dashboards in graphical interface.

SPARK 2014 COMPILER | C language - Flex - Linux - Scrum
Developement of a compiler Spark2014 programming language, using C language, Flex.
